The Gemstone 1507-ES is one of Gemstone's newest sink lines, the ES series. The ES series of sinks have tighter radii providing the sinks with a more up-to-date, sleeker look, and unrivaled performance. The 1507-ES provides a complementary bowl to the 1815-S, 1515-ES, or 1524-ES as a prep sink or can stand alone where a small sink is needed, providing a seamless, efficient place to work in the kitchen area. This sink works well in laboratories and clinical applications as well as residential applications. Solid surface has excellent chemical resistant properties.

Gemstone Sinks are compatible and warranted when used with all major solid surface sheet brands with the same sheet warranties.

Gemstone supports conservation and green building practices. Gemstone Packages all products in 100% recyclable packaging using boxes made primarily of recycled paper.

Gemstone sinks are proudly made in the USA and certified by:
